## PRINCIPALES CAUSAS

| Servicio                                                                                                       |  |
|----------------------------------------------------------------------------------------------------------------|--|
| A00-A09 - Enfermedades infecciosas intestinales                                                                |  |
| A50-A64 - Infecciones con un modo de transmisión predominantemente sexual                                      |  |
| B82 - Parasitosis intestinales, sin otra especificación                                                        |  |
| D50-D53 - Anemias nutricionales                                                                                |  |
| D55-D59 - Anemia hemolítica                                                                                    |  |
| D60-D64 - Aplasia y otras anemias                                                                              |  |
| E10- E14 - Diabetes mellitus                                                                                   |  |
| F00-F09 - Trastornos mentales orgánicos, incluidos los sintomáticos                                            |  |
| F10-F19 - Trastornos mentales y de comportamiento debidos al consumo de psicotrópicos                          |  |
| F20-F29 - Esquizofrenia, trastornos esquizotípicos y trastornos delirantes                                     |  |
| F30-D39 - Trastornos del estado de ánimo                                                                       |  |
| F40-F48 - Trastornos neuróticos, secundarios a situaciones estresantes y somatomorfos                          |  |
| F50-F59 - Síndromes del comportamiento asociados a alteraciones fisiológicas y factores físicos                |  |
| F60-F69 - Trastornos específicos de la personalidad y otros trastornos del comportamiento adulto               |  |
| F70-F79 - Trastornos del desarrollo intelectual                                                                |  |
| F80-F89 - Trastornos del desarrollo psicológico                                                                |  |
| F90-F98 - Trastornos del comportamiento y de las emociones de inicio habitual en la infancia y la adolescencia |  |
| F99 - Trastorno mental no especificado.                                                                        |  |
| H10-H13 - Trastornos de la conjuntiva                                                                          |  |
| I10-I15 - Enfermedades Hipertensivas                                                                           |  |
| I20-I25 - Enfermedades cardíacas isquémicas                                                                    |  |
| J00-J06 - Infecciones agudas de las vías respiratorias superiores                                              |  |
| J09-J10 - Gripe y Neumonía                                                                                     |  |
| J20-J22 - Enfermedades respiratorias inferiores agudas                                                         |  |
| J30-J39 - Otras enfermedades de las vías respiratorias superiores                                              |  |
| J40-J47 - Enfermedades respiratorias inferiores crónicas                                                       |  |
| K20-K31 - Enfermedades del esófago, estómago y del duodeno                                                     |  |
| L00-L08 - Infecciones de la piel y del tejido subcutáneo                                                       |  |
| M50-M54 - Otras dorsopatías                                                                                    |  |
| M60-M79 - Trastornos de los tejidos blandos                                                                    |  |
| N25-N29 - Otros trastornos del riñón y del uréter                                                              |  |

|                                                                                                           |  |
|-----------------------------------------------------------------------------------------------------------|--|
| N70-N77 - Enfermedades inflamatorias de los órganos pélvicos femeninos                                    |  |
| N80-N98 - Trastornos no inflamatorios de los órganos genitales femeninos                                  |  |
| O10-O15 - Edema, proteinuria e hipertensión en el embarazo, el parto y el puerperio                       |  |
| O20-O26 - Otras enfermedades de la madre que pueden afectar al feto                                       |  |
| O85-O92 - Enfermedades postparto                                                                          |  |
| R10-R19 - Síntomas de enfermedades digestivas y desórdenes abdominales                                    |  |
| R50 - Fiebre de Origen desconocido                                                                        |  |
| S00-S09 - Traumatismos de la cabeza                                                                       |  |
| S10-S19 - Traumatismos de cuello                                                                          |  |
| S20-S29 - Traumatismos de tórax                                                                           |  |
| S30-S39 - Traumatismo del abdomen, área lumbosacra y pelvis                                               |  |
| S40-S49 - Traumatismos de los hombros y brazos                                                            |  |
| S50-S59 - Traumatismos del codo y del antebrazo                                                           |  |
| S60-S69 - Traumatismos en muñecas y manos                                                                 |  |
| S70-S79 - Traumatismos en caderas y muslos                                                                |  |
| S80-S89 - Traumatismos en rodillas y piernas                                                              |  |
| S90-S99 - Traumatismos en tobillos y pies                                                                 |  |
| T20-T32 - Quemaduras y corrosiones                                                                        |  |
| Y90-Y91 - Alcoholismo y otros factores no clasificados en otra parte causantes de mortalidad o morbilidad |  |
| Z30-Z39 - Intervenciones relativas a la reproducción                                                      |  |
| Otras causas de morbilidad                                                                                |  |

## PRINCIPALES CAUSAS

| Servicio                                                                                                       |  |
|----------------------------------------------------------------------------------------------------------------|--|
| A00-A09 - Enfermedades infecciosas intestinales                                                                |  |
| A50-A64 - Infecciones con un modo de transmisión predominantemente sexual                                      |  |
| B82 - Parasitosis intestinales, sin otra especificación                                                        |  |
| D50-D53 - Anemias nutricionales                                                                                |  |
| D55-D59 - Anemia hemolítica                                                                                    |  |
| D60-D64 - Aplasia y otras anemias                                                                              |  |
| E10- E14 - Diabetes mellitus                                                                                   |  |
| F00-F09 - Trastornos mentales orgánicos, incluidos los sintomáticos                                            |  |
| F10-F19 - Trastornos mentales y de comportamiento debidos al consumo de psicotrópicos                          |  |
| F20-F29 - Esquizofrenia, trastornos esquizotípicos y trastornos delirantes                                     |  |
| F30-D39 - Trastornos del estado de ánimo                                                                       |  |
| F40-F48 - Trastornos neuróticos, secundarios a situaciones estresantes y somatomorfos                          |  |
| F50-F59 - Síndromes del comportamiento asociados a alteraciones fisiológicas y factores físicos                |  |
| F60-F69 - Trastornos específicos de la personalidad y otros trastornos del comportamiento adulto               |  |
| F70-F79 - Trastornos del desarrollo intelectual                                                                |  |
| F80-F89 - Trastornos del desarrollo psicológico                                                                |  |
| F90-F98 - Trastornos del comportamiento y de las emociones de inicio habitual en la infancia y la adolescencia |  |
| F99 - Trastorno mental no especificado.                                                                        |  |
| H10-H13 - Trastornos de la conjuntiva                                                                          |  |
| I10-I15 - Enfermedades Hipertensivas                                                                           |  |
| I20-I25 - Enfermedades cardíacas isquémicas                                                                    |  |
| J00-J06 - Infecciones agudas de las vías respiratorias superiores                                              |  |
| J09-J10 - Gripe y Neumonía                                                                                     |  |
| J20-J22 - Enfermedades respiratorias inferiores agudas                                                         |  |
| J30-J39 - Otras enfermedades de las vías respiratorias superiores                                              |  |
| J40-J47 - Enfermedades respiratorias inferiores crónicas                                                       |  |
| K20-K31 - Enfermedades del esófago, estómago y del duodeno                                                     |  |
| L00-L08 - Infecciones de la piel y del tejido subcutáneo                                                       |  |
| M50-M54 - Otras dorsopatías                                                                                    |  |
| M60-M79 - Trastornos de los tejidos blandos                                                                    |  |
| N25-N29 - Otros trastornos del riñón y del uréter                                                              |  |
| N70-N77 - Enfermedades inflamatorias de los órganos pélvicos femeninos                                         |  |

|                                                                                                           |  |
|-----------------------------------------------------------------------------------------------------------|--|
| N80-N98 - Trastornos no inflamatorios de los órganos genitales femeninos                                  |  |
| O10-O15 - Edema, proteinuria e hipertensión en el embarazo, el parto y el puerperio                       |  |
| O20-O26 - Otras enfermedades de la madre que pueden afectar al feto                                       |  |
| O85-O92 - Enfermedades postparto                                                                          |  |
| R10-R19 - Síntomas de enfermedades digestivas y desórdenes abdominales                                    |  |
| R50 - Fiebre de Origen desconocido                                                                        |  |
| S00-S09 - Traumatismos de la cabeza                                                                       |  |
| S10-S19 - Traumatismos de cuello                                                                          |  |
| S20-S29 - Traumatismos de tórax                                                                           |  |
| S30-S39 - Traumatismo del abdomen, área lumbosacra y pelvis                                               |  |
| S40-S49 - Traumatismos de los hombros y brazos                                                            |  |
| S50-S59 - Traumatismos del codo y del antebrazo                                                           |  |
| S60-S69 - Traumatismos en muñecas y manos                                                                 |  |
| S70-S79 - Traumatismos en caderas y muslos                                                                |  |
| S80-S89 - Traumatismos en rodillas y piernas                                                              |  |
| S90-S99 - Traumatismos en tobillos y pies                                                                 |  |
| T20-T32 - Quemaduras y corrosiones                                                                        |  |
| Y90-Y91 - Alcoholismo y otros factores no clasificados en otra parte causantes de mortalidad o morbilidad |  |
| Z30-Z39 - Intervenciones relativas a la reproducción                                                      |  |
| Otras causas de morbilidad                                                                                |  |
